Cadamin™ Varna

Marine Ornamental Fish Feed

- 'Varna' is a scientifically evaluated, slow sinking marine ornamental fish feed.
- Constituents: 38% protein, 9% fat, 39% carbohydrates, 7% ash (minerals) and less than 2% fiber. Contents are marine protein, soy protein, wheat flour, oil vitamins, minerals, colour imparting nutrients like carotenoids from natural sources, immune promoters, probiotics and antioxidants.
- Availability in particle size: 0.25mm, 0.75 mm and 1 mm.
- Recommended usage: Feed 2-3 % of the fish body weight once in a day.

For further information please contact: The Director,
Central Marine Fisheries Research Institute

E-mail: director@cmfri.org.in, Web: www.cmfri.org.in Tel: 0484-2394867; Fax: 0484-2394909

Cadamin™ Green Algal extract

Natural in every sense

Cadamin™ GAE

- A 100% vegetarian nutraceutical from nature for joint pain and arthritis
- GAE is a natural alternative to synthetic nonsteroidal anti-inflammatory drugs (NSAIDs) without any harmful side effects
- A highly cost-effective and indigenous product

PREFACE

Marine fishery resources are renewable and limited, therefore management of the harvest of marine fishery resources is necessary for sustained production from the sea. Towards this, it is very much essential to have reliable and updated knowledgebase on status of marine fishery resources, fishing effort expended, number of fishing villages, number of landing centres, fisherfolk population, their educational status, occupational status, infrastructure facilities existing in fishing villages, fishing crafts, fishing gears etc. For generating such information the Central Marine Fisheries Research Institute (CMFRI), Cochin has been periodically conducting frame surveys. The first marine fisheries census was conducted by CMFRI in 1980 with the support of Ministry of Agriculture. Second marine fisheries census on all India basis was conducted during 2005. Dynamic changes have taken place in the fishery and there were many management interventions introduced by the state and central governments from time to time. Changes have also taken place in the crafts and gear, fisherfolk population structure, availability of resources and their spread, infrastructure facilities, educational status etc.

In view of the dynamic nature of the marine fisheries sector, the policies and interventions need to be reviewed periodically. Reliable updated real time data on different aspects of marine fisheries is very much essential for developing suitable policies and interventions. The Department of Animal Husbandry Dairying and Fisheries (DAHDF), Ministry of Agriculture, Government of India during the 11th five year plan has taken up a central sector scheme on “Strengthening of database and Geographical Information System for fisheries sector” with Census on Marine Fisheries as one of the components which was assigned to CMFRI for the second time, considering the expertise and experience in conducting the massive census on all India basis.

The list of marine fishing villages for the different maritime states and union territories formed the frame for the census, which was updated

with the most recent information received from the respective state fisheries departments. This information was validated by conducting a pre-census survey. In addition to the task of selection of enumerators for the conduct of census operation, information on number of households in each village was also collected during the pre-census survey. The necessary schedules for collection of information from marine fishermen households were developed by conducting a series of workshops at CMFRI headquarters, regional and research centers. The data collection schedules so developed was approved by the Technical Monitoring Committee set up by the DAHDF. Workshops and trainings were also conducted at different locations for the field level supervisors and enumerators regarding the filling up of different schedules. Instructions were also prepared and distributed to field level supervisors and enumerators on each item of entry in the schedules. The census was carried out through 2,074 enumerators in 3,288 marine fishing villages and information from 8,64,550 households were collected. The entire operation was carried out under the supervision at different levels by the scientists and technical staff of CMFRI. The schedules used for enumeration were bilingual, both in English and local language.

The final report is in two parts, Part I with information at national level and the Part II is for each maritime state. The scope, time frame, parameters, definitions, type of schedules etc. are also described in Part I. This document is a consolidated report for the state of Odisha, covering 813 marine fishing villages along the six coastal districts, which provides districtwise information on marine fishing villages, fish landing centres, population structure, educational status, socio-economic profile, occupation together with the ownership pattern of crafts and gears among fisherfolk. It is also intended to provide a summary of the crafts in the fishery and the infrastructure facilities available in the marine fishing villages in the state.

It is my pleasure to use this opportunity to thank the DAHDF and the Indian Council of Agricultural Research (ICAR) for having trust in CMFRI in its ability to take up the arduous task of carrying out the National Marine Fishery Census 2010. At this juncture I take the opportunity to thank the DAHDF for accepting the CMFRI national marine fisheries data (after reconciliation with states) as the official data of Government of India. I thank the state fisheries department for extending all the supports for the successful conduct of census. The sincere and hard work carried out by Fishery Resource Assessment Division staff of CMFRI need special mention and I thank each one of them. Special thanks are due for all the scientific, technical and administrative staff who were involved in one way or other in the conduct of census. Finally, appreciations also go to Dr. G. Maheswarudu, Scientist-in-Charge, Visakhapatnam Regional Centre and Dr. Reeta Jayasankar, Scientist-in-Charge, Puri Field Centre of CMFRI for the support and help rendered in completing this program successfully. I am sure this report will be of enormous use to all associated with the development of marine fisheries.

List of marine fishing villages	479
List of landing centres	491

SUMMARY

Marine Fisheries Census 2010 was carried out in six districts of Odisha namely Balasore, Bhadrak, Kendrapara, Jagatsinghpur, Puri and Ganjam during April-May 2010. The scope, time frame and terms used are described in Part I of the Marine Fisheries Census Report. The significant features are summarized below:

Fishing villages and landing centres

- There are 813 marine fishing villages wherein fishermen reside. The maximum number was in Balasore district (415) and minimum was in Ganjam district (26). The number of fishing villages in the remaining districts varied between 41 to 119.
- The total number of landing centres was 73, of which 20 belonged to Ganjam district. The minimum number of landing centres was in Jagatsinghpur district (5).

Population

- There were 1,14,238 fishermen families in the state with a population of 6,05,514. The maximum number of families were in Balasore district (47,162) followed by Jagatsinghpur district (17,508).
- Of the total fisherfolk population, Balasore accounted for 45% followed by Jagatsinghpur (16%), Kendrapara (13%) and Puri (11%).
- Among 1,14,238 fishermen families, 77% belonged to traditional fishermen.
- The average the number of families per village was 141, with 745 persons per village.
- The average family size was 5.3 with a minimum of 4.1 in Ganjam and a maximum of 5.7 in Balasore districts.
- Adult males constituted 31%, adult females 28% and children 41% of the marine fisherfolk population in Odisha.
- Women formed 47% of the population and the female to male ration was 893 for 1000 males. This ratio was maximum in Bhadrak district (919) and minimum in Balasore (876) district.

Poverty

- There were about 56,279 households below poverty line.
- Among the six coastal districts, the largest proportion of fishermen families below poverty line was found in Balasore (49%) followed by Puri (13%) and Jagatsinghpur (12%).

Education

- In Odisha 53% of fisherfolk (excluding children below 5 years) were educated with different levels of education.
- About 62% of the fisherfolk had primary level of education, 31% had secondary, 7% had above secondary level of education. The extent of unschooled population in the state was 47%.
- Maximum percentage (16%) of unschooled among fisherfolk was in Balasore district.

Occupation

- There were 1,62,411 active fishermen of whom 99,972 were fulltime fishermen, 35,609 part-time and the rest engaged in fish seed collection.
- Among the occupied (2,60,210), 62% of the fisherfolk were engaged in active fishing and 38% in fishing allied activities.
- There were 89,661 fisherfolk engaged in fishing allied activities, such as marketing (36%), labourers (31%), making/repairing net (20%), curing/processing (9%) and peeling (2%).
- Women outweighed men in fishing allied activities accounting about 54%. Among the major fishing allied activities women dominated in curing/processing (82%), peeling (76%) and marketing (66%).
- Among the different districts, maximum number fisherfolk engaged in fishing allied activities belonged to Balasore (26%) whereas this was only 5% in Bhadrak district.
- About 9% of adult fisherfolk were engaged in marketing of fish. Among them, 33% belonged to Jagatsinghpur, 18% to Kendrapara and 16% to Balasore.
- Nearly 5% of adult fisherfolk involved in making/repairing net. Among them 42% belonged to Balasore, 24% to Jagatsinghpur and 13% to Kendrapara.

- About 8% of the adult fisherfolk were engaged as labourers. Among them 36% belonged to Kendrapara followed by Balasore (23%).

Religion

- Hindus constituted 97% of the fishermen families, Muslims (2%) and Christians (1%).
- In all the districts, Hindus dominated the fishermen families.
- Nearly 11% of the fishermen families belonged to SC/ST.

Membership in co-operatives

- 14% of the adult fisherfolk were having membership in co-operative societies out of which 55% were in fisheries co-operative societies. This proportion was highest in Puri district (75%), Jagatsinghpur (71%) and Kendrapara (62%).

Craft in the fishery

- There were 10,826 crafts in the fishery of which 2,248 were mechanized, 3,922 motorized and the rest non-motorized.
- Trawlers (58%), gillnetters (35%), liners (5%) and bagnetters (2%) were the main crafts in the mechanized sector.
- Balasore (989), Jagatsinghpur (885) and Bhadrak (350) districts accounted for bulk of the mechanized crafts in Odisha.
- In Odisha, of the total 1,305 trawlers, 45% belonged to Jagatsinghpur, 39% to Balasore districts, which altogether constituted 84%.
- Mechanized gillnetters were mainly observed in Balasore (61%) and Jagatsinghpur (24%) districts, whereas all the mechanized liners were observed in Jagatsinghpur (100%) district. Bagnetters were employed only in Bhadrak district (100%).
- Kendrapara (27%) and Ganjam (24%) districts were the key contributors to non-motorized crafts while majority of the motorized crafts were operated in Puri (43%) and Ganjam (20%) districts.

Craft/Gear owned by the fisherfolk

- There were 25,307 crafts owned by fisherfolk, of which 2861 were mechanized, 3,084 motorized and 19,362 non-motorized.

- Non-motorized plank built boats accounted for 61% of the crafts owned by fisherfolk followed by gillnetters (10%) and motorized plank built boat (5%).
- Mechanized crafts and plank built boats owned by fishermen were operated in other districts or states.
- Important gears owned by fisherfolk were castnets, gillnets and driftnets. Sharing pattern was more visible in gillnets and castnets.

Infrastructure

- In Odisha, 76% of the fishermen houses were kutcha houses and 24% were pucca houses.
- There were 810 primary schools, 255 secondary schools, 49 colleges and 31 technical institutions in the fishing villages of Odisha.
- 64% of the fishing villages were electrified, 18% had bus stop/bus stand and 89% of the fishing villages had cell phone coverage.
- There were 56 ice factories, 22 boat yards, 39 curing yards, 28 peeling sheds, 14 cold storages and 2 freezing plants in Odisha.
